Your explanation is very good. However I used to be afraid of asking any question because of your attitude. You have to control your self and understand that were students who came to learn. If we know everything then we wouldn't ask. But if we asked this means that we don't get this specific thing even if it was very silly to you.Understand that not all students the same. Some may understand some may not. This doesn't mean that this person is stupid or idiot. It just means that this person needs extra explanation. And another comment Pleaseeeeeeeee try to finish the class at the time.

Thanks and hope you will consider my comments.
