

Faculty Handbook

We expect the following from our faculty.

1. Teach the courses assigned to them.
2. Conduct research in their field.

The benefits of each faculty are as in the contract. Any update on this, it will be reported by the chancellor.

For other issues concerning faculties, such as sabbaticals, leave of absence, and promotions, the Head of the department will communicate to you the procedures.

As other issues occur that concern a faculty member, a committee of independent faculties will be formed to deal with the issue.

Emeritus professor will be given automatically to every retired faculty with no discrimination.

AUS will never discriminate against race, color, religion, or belief *

*Revised: Maybe this is impossible to achieve in the real life, but it is nice saying 😊. We promise to try our best.

** Note that the above seems very common sense, but we must fill out this section.
