Response Rate:	**25.00**% (**4** of **16**)

1	The orinization of the course material was somehow confusing. consider rearanging some things. But starting with LA place was a good idea that i think other teachers should implement

4	The way Dr. Ayman taught us MTH205 is the best way, because we started with the hardest part wich was Laplace, then we started going back from the hardest to the easiest gradually. This was for our benefit.

3	Sometimes Dr. Ayman tries to prove his point in a harsh way. Like if someone asked him a question , Dr Badawi's answer is a little bit harsh on the students , some students are afraid to ask question to avoid embarasement. Although, speaking about my opinion, im here to achieve knowledge , and nothing should stop on my way, which leads me to ask questions no matter how much embarrasing i would look like. 1	Loved learning under your hand sir ,, i enjoyed the course a lot. i admire the way you handle the class and demonstrate the examples .. it helped me to understand math better thanks sir
2	I liked the way Dr. Badawi taught this course. He started with the hardest part so that at the end of the semester we dont say that we didnt have much time for that chapter. Well Done!
