Question:	**Please provide your instructor with helpful suggestions for improving his/her effectiveness**
Response Rate:	**40.00**% (**10** of **25**)

1	please try to have shorter exams.because when the exam gets long, it make our minds fatigue. so we can not consenterate.
2	The instructor is really rude when answering the questions asked by the students. He should be glad that people ask qusetions,but his behavior prevents us from asking anything! He should be aware of what he does and that when he embaresses somene in the class ,it is really bad.
3	i think solving more questions would be more effective in understanding the course. also providing help sessions before the midterm, would help the students to know what question should they expect on the midterm.
4	The lectures and notes provided were excellent and easy to read through
5	He should be more respectful and understanding
6	He is very angry instructor. He doesn't allow us to ask. Once we asked him a question (he may see it silly), he will start shouting on us. He cannot tolerate any wrong answers. He have to somke at least one ciggarette before the class, otherwise, he may kill us.
7	The professor is really rude and has no respect of what so over to anyone. he makes the students feel stupid when they ask him questions, nothing is really up to his standards
8	the prof might have put his effort teaching this course..but his classes were boring and without any interactions between student.i didnt get anythng of the course
9	....

10	please when someone ask a question, even if it was a stupid question answer him, donot get angry on it and say you will no answer
