Q20 - Please enter below any comments on how the course should be improved

Faculty: Badawi, Ayman R

Response Rate: 10.71% (3 of 28)

1 some study materials like a manual or a text book would improve our learning experience 🔍

2 Textbooks should be included 🔍

3 A textbook should have been provided in order to help with revision. 🔍

Q21 - Please provide your instructor with helpful suggestions for improving his/her effectiveness

Faculty: Badawi, Ayman R

Response Rate: 10.71% (3 of 28)

1 its okay to ask questions

however love his chill attitude and giving reasons why 🔍

2 To be more organized while writing the material on the board. Make it less confusing. 🔍

3 Professor Badawi is highly knowledgeable within the field of math. However, his approach towards teaching MTH111 was unsuccessful. Frequently, class content would not have been laid out clearly, with there being little idea as to what the class would be about. Similarly, the assumption that everybody understood certain concepts (which is not the case) was highly damaging in ensuring that all students understood class content. A more structured approach was needed. 🔍

Q22 - Please enter specific comments, if relevant, on the role that Information Technology plays or could play in this course

Faculty: Badawi, Ayman R

Response Rate: 3.57% (1 of 28)

1 ICT was never used in this course. 🔍

Q23 - Other comments

      Faculty: Badawi, Ayman R

Response Rate: 7.14%   (2 of 28)

1 Since the course is open to caad students and most studios start at 1pm, it would be helpful if the timing was different. usually the hour before studio is crucial and it is really stressful to have a class before it. 🔍

2 I like how the professor explains the reasons and logic behind what we are studying in math, instead of just memorizing the formulas and blindly solve the questions. 🔍
