<b>4</b>	none, very good course
<b>5</b>	No comments.
<b>6</b>	The course should implement information technology more often.

<b>Question:</b>	<b>Please provide your instructor with helpful suggestions for improving his/her effectiveness</b>
<b>Response Rate:</b>	<b>27.59%</b> (8 of 29)

<b>1</b>	The instructor should be more open to questions, it shows that we are willing to listen to him. He considers it as an insult and that we are stupid.
<b>2</b>	No suggestions.
<b>3</b>	My instructor was excellent.
<b>4</b>	none, very thorough and good instructor
<b>5</b>	He can answer questions asked by his students in a calm way.
<b>6</b>	Answer students questions even though if you think they are not good questions. Provide take home assignments for students to solve and be prepared for exams. Have printouts or slides for students to know how the course is progressing.
<b>7</b>	No need to provide any suggestions because the professor is really amazing
<b>8</b>	The professor often picks on students who got answers wrong in the quiz, that way the whole class is aware of it which makes the student feel uncomfortable or embarrassed.

<b>Question:</b>	<b>Other comments</b>
<b>Response Rate:</b>	<b>27.59% (8 of 29)</b>

<b>1</b>	The best professor I've ever had!
<b>2</b>	This professor has a very good method of teaching.
<b>3</b>	None.
<b>4</b>	It is not a good ides ,I believe, to have a common final while the midterms are not. It is either all the exams are common or all of them are not. Students cannot predict the way the common exam will be. they are used to their instructors' exams. The final is worth 40% of the course grade, which is a lot and needs to be taken into consideration.
<b>5</b>	none
<b>6</b>	no comments
<b>7</b>	Good course can be greatly improved.
<b>8</b>	Ayman Badawi is such a wonderful professor. He helps the students alot to understand the material completely. I really recommend all the students to take with him.
