<b>Faculty:</b>	<b>Badawi, Ayman R</b>
<b>Question:</b>	<b>Please provide your instructor with helpful suggestions for improving his/her effectiveness</b>
<b>Response Rate:</b>	<b>12.50% (3 of 24)</b>

<b>1</b>	He shouldn't be mean with the students. No one has the guts to ask him any question or even talk in class if they have any doubt or any problem, because he'll start criticizing and making fun of him/her. So we couldn't ask anything in class !! Although the instructor is AMAZING ... He's really good in teaching and he has a thorough knowledge of the subject. He mastered MATH.
<b>2</b>	if he could be more friendly..and not to be rude
<b>3</b>	The students should have the right to ask questions in class or answer on questions asked. If the student gave a wrong answer to a question she/he should not be embarrassed from what she answered you should answer her/him and explain where she/he went wrong. Didnt you notice at the end of the course rarely anyone answered to the questions asked compared to the beginning of the course. They didnt want to be embarrassed in front of the whole class from what you would criticize on them. Thank you for your time.

<b>1</b>	I have enjoyed taking this course so much! Because it was such an excellent class and because he is such an outstanding teacher, I'm thinking of taking the MTH 103 course even though it is not required of me.
