Question:	Please enter below any comments on how the course should be improved
Response Rate:	41.67% (5 of 12)

1	the course should get a better teaching material
2	for starters i dont see the relevance of this course to what we do as design students, hence, i do not see the point of it being a requirement!, YES, we are architecture and interior design students, which requires a working understanding of the basics of mathematics. However, i still believe this course is an over requirement.
3	Needs more applications after each lesson.
4	Slow down.
5	it was fine
