<b>Question:</b>	<b>Please provide your instructor with helpful suggestions for improving his/her effectiveness</b>
<b>Response Rate:</b>	<b>16.67%</b> (5 of 30)

<b>1</b>	The professor would often answer the students' questions with sarcasm which often intimidates students to ask.
<b>2</b>	need to be less rude so students can ask him questions easily. Loses temper easily. If you dont have the patience to teach, then dont teach! Thinks all students are stupid even if they make an an honest mistake.
<b>3</b>	provide students with more questions (to solve outside lecture hours) to be able to practice the work done in class and therefore master the techniques taught
<b>4</b>	your teaching methods were great and i was really lucky to take this course with you. however, sometimes some students make silly mistakes and you point at them in front of the whole class so just try to avoid that as it causes the students to hate the subjects before they hate you. and thanks for teaching us at the end. :)
<b>5</b>	You are the boss anyway! i don't think your the kind who even cares about anyone's suggestions. If you have a problem with students using cell phones, inform in the first class! dont scream/ insult people in front of the whole class.

<b>1</b>	Honestly I want to thank the professor. This is my last math course in this university and this is the first time I actually understand the material. I have done well in the first midterm alhamdulillah and InshAllah the second midterm and the final will be on the same level.
<b>2</b>	none
<b>3</b>	textbook should be changed as the current one is not useful at all!
<b>4</b>	leave your anger and ego at home.
