1	He disrespects students' questions and could be rude at times.
2	Please respect students' personality so that others respect your personality. Humans make mistakes and even YOU make mistakes. You can't humiliate students even if their answers to your questions are wrong or they ask you silly questions. We have seen you had problems in addition and subtraction. Did you like it if we mocked you?
3	His teaching methods should be improved.

1	The instructor has aggressive behavior. As a student, I do not expect this kind of behavior from a professor. Actually, I have not seen any professor with this behavior at AUS. Students do not dare to ask him questions, answer his questions. I remember one day a students said:" I don't want to sit in the front row because I'm scared." After taking quiz, if you had a silly problem, he mock you in front of other students. The same thing happens if your answer to his question is wrong. I believe he is overrated.
2	He has very good teaching methods and delivers the theories and all perfectly, however he really needs to fix his attitude towards students. He can be sometimes rude and say inappropriate comments."
