1	Ayman made me hate math! He's explanation is decent, maybe, but his attitude is horrible. He is so rude and when going to his office, we are selling our dignity. He places really hard exam considering his course, Linear Algebra should be an essay course not a demanding course that requires us to focus really well in class and write down everything he says because hes going to include it in the exam. I hate my class with him, I'm never taking with him any course again.
2	I love this course , I love Dr.Ayman , I love the way he teaches the course :D
3	The professor had provided us with useful resources to help us as a students to enhance our performance.
