1. Again this was a quite a complex course; I learned a lot from it and I actually very much liked both Algebra 1 (taught by Dr Taher) and Algebra 2 (taught by Dr Badawi).

   There were several lectures that I would just classify as brilliant; the organization of the lectures was designed to stimulate indeed provoke intellectual curiosity and it did just that and more!!

   So from an intellectual point of view of view a very satisfying course; a very stimulating course and aesthetically a very beautiful course. Dr Ayman clearly knows his algebra and knows how to teach and motivate students as well.

   The difficulty when teaching such complex material is to motivate students to think about it to provoke questions; Dr Badawi managed this almost unthinkable feat. His lectures were always a pleasure to attend; for me

   personally since I thought my background in algebra is not too bad I came away learning almost 3 times more than I initially thought I would.
